FORMAL STATEMENT OF REVIEW
<p>This document records a project review meeting between the two parties mentioned herein. The meeting was convened to demonstrate how to set up and run the project, including both backend and frontend components, and to guide the client through the necessary steps for installation and database management.</p> <ul style="list-style-type: none">The project setup was demonstrated, covering both backend and frontend aspects. The ESPOLTEL developer Melissa was shown how everything functions.Melissa was guided through the installation of all frontend dependencies using npm and backend dependencies using pip.The process of creating instances from the Django admin console to populate the database was demonstrated, including creating user profiles, roles and projects.Fully functional screens for each existing role and the responsive application were showcased.The client expressed curiosity about modifying database tables. It was emphasized that modifications should be made using Django to avoid conflicts with Django's database manager version. It was agreed that this would be noted for the project's end. If the team has time, this information will be added to the documentation; if not, it will not be included.Certain commands for managing migrations were explained to ensure proper database handling.

NAMES	POSITION
Ing. Francisco Ramirez	Product Owner
Melissa Ayllon	ESPOLTEL developer
Meiyin Melissa Chang Rizzo	Scrum Master
Diego Andres Martinez Mendia	Development Team
