FORMAL STATEMENT OF REVIEW

This document records a project review meeting between the two parties mentioned herein. The meeting was convened to discuss the status of the project, demonstrate the developed functionalities of the final sprint of the first half of the semester. The following items were addressed:

- The client was shown how the web application functions with all the requirements established in the previous minutes. Each functionality was explained in detail, demonstrating the fully functional screens and views.
- The following features were highlighted as completed for this meeting:
  - role management
  - screens displayed based on the logged-in user's role,
  - creation of a project with its respective items,
  - creation of categories for project items,
  - display of the total budget sum of all items when creating a project.
  - display actions based on the logged-in user's role.
  - automatically redirect to the access denied page if access is attempted to screens that are not allowed for the user's role.
  - requests' creation with their respective data.
  - view screen of created requests in descending order for the project manager and procurement member
- The client mentions that a demo should be made explaining the new interface for project creation.
- The client was assured that testing will be conducted on the progress made so far. The first meeting of the second half will showcase the testing results and respective progress.
- The client mentions that the project is going well and that he accepts the progress of the first partial of the semester.
